Labor Category Descriptions SIN 595-27

Post COE* Pre-employment exam Interview & Report Only	Public safety job applicant is interviewed by the psychologist, using a structured interview, approximately 45 minutes in length. Applicant is asked about psychiatric, substance abuse, and medical history. Psychologist recommends whether or not the applicant is currently suitable to be hired for the position sought for the specific agency at this time, based on job-related dimensions such as social competence, flexibility, teamwork, conscientiousness, impulse control, integrity, emotional regulation, stress tolerance, decision-making, judgment, assertiveness, avoidance of substance abuse and other risk-taking behavior. Examination results are included in a narrative report that is sent to the referring agency.
Post COE Pre-employment Testing - Scoring and computer report only	Psychometric tests (e.g., MMPI-2, 16-PF) are computer scored, and computerized reports are printed out and sent to the examining psychologist.
Post COE Pre-employment interview and testing without report	Public safety job applicant is interviewed by the psychologist, using a structured interview, approximately 45 minutes in length. Applicant is asked about psychiatric, substance abuse, and medical history. Candidate also takes appropriate psychometric tests, such as the MMPI-2, CPI, Shipley-2, and ethics survey. Psychologist recommends whether or not the applicant is currently suitable to be hired for the position sought for the specific agency, based on job-related dimensions such as social competence, flexibility, teamwork, conscientiousness, impulse control, integrity, emotional regulation, stress tolerance, decision-making, judgment, assertiveness, avoidance of substance abuse and other risk-taking behavior. A narrative report is not sent to the referring agency.
Post COE Pre-employment interview, testing, and report (full exam)	Public safety job applicant is interviewed by the psychologist, using a structured interview, approximately 45 minutes in length. Applicant is asked about psychiatric, substance abuse, and medical history. Candidate also takes appropriate psychometric tests, such as the MMPI-2, CPI, Shipley-2, and ethics survey. Psychologist recommends whether or not the applicant is currently suitable to be hired for the position sought for the specific agency, based on job-related dimensions such as social competence, flexibility, teamwork, conscientiousness, impulse control, integrity, emotional regulation, stress tolerance, decision-making, judgment, assertiveness, avoidance of substance abuse and other risk-taking behavior. Examination results are included in a narrative report that is sent to the referring agency.

Telehealth Post COE Pre- employment interview, testing, and report (full exam)	Public safety job applicant is interviewed by the psychologist via teleconference (i.e., telehealth), using a structured interview, approximately 45 minutes in length. Applicant is asked about psychiatric, substance abuse, and medical history. Candidate also takes appropriate psychometric tests, such as the MMPI-2, CPI, Shipley-2, and ethics survey (proctored by the referring agency). Psychologist recommends whether or not the applicant is currently suitable to be hired for the position sought for the specific agency based on job-related dimensions such as social competence, flexibility, teamwork, conscientiousness, impulse control, integrity, emotional regulation, stress tolerance, decision-making, judgment, assertiveness, avoidance of substance abuse and other risk-taking behavior. Examination results are included in a narrative report that is sent to the referring agency.
Pre COE Testing only	Public safety job applicant takes appropriate psychometric tests, such as the CPI, Shipley-2, background survey, and ethics survey. Applicant is not asked about psychiatric, substance abuse, or medical history. Psychologist determines a risk rating for the applicant for the position sought and for the specific agency at this time. The risk-rating is based on job-related dimensions such as social competence, flexibility, teamwork, conscientiousness, impulse control, integrity, emotional regulation, stress tolerance, decision-making, judgment, assertiveness, avoidance of substance abuse and other risk-taking behavior. A narrative report is not sent to the referring agency.
Pre COE Leadership / Promotional Exams	Public safety applicant for a supervisory position takes appropriate psychometric tests such as the CPI, Shipley-2, background survey, and ethics survey. The applicant is interviewed by the psychologist, using a structured interview, approximately 90 minutes in length. Applicant is not asked about psychiatric, substance abuse, or medical history. This exam focuses on the candidate's ability to lead others and manage effectively. Characteristics and abilities assessed include intelligence, leadership skills, organizational skills, social skills and social judgment, management style, creativity, organizational vision, stress tolerance, work orientation, customer service orientation, and ethics and integrity.
Incumbent Fitness For Duty Exams (FFDE)	This exam determines if an employee has a psychological condition or impairment that compromises his or her ability to perform essential job functions in a safe and effective manner. In addition, if the employee is found unfit, the FFDE may offer a prognosis, potential treatment options, or accommodations to help the employee return to fitness, if possible. The employee is examined with appropriate psychometric tests, such as the MMPI-2 or Personality Assessment Inventory (PAI). A clinical interview of approximately two or more hours is also used.

CONSULTING & FORENSIC PSYCHOLOGISTS

Labor Category Descriptions SIN 595-28

Initial and Review Mental Health Exams	Compensation & Pension (C & P) Psychological Examination to determine if a veteran has a psychological disorder, such as Eating Disorders, Anxiety, Depression, or Schizophrenia to determine possible service connected mental illnesses (excluding PTSD). Exam consists of approximately 60 minutes of service, including record review (C-File and medical records) and interview. Review exams determine if a veteran's condition or functional limitations have changed since their last C&P exam. The psychologist generates a report using the Disability Benefits Questionnaire (DBQ).
Telehealth Initial and Review Mental Health Exams	Compensation & Pension (C & P) Psychological Examination to determine if a veteran has a psychological disorder, such as Eating Disorders, Anxiety, Depression, Schizophrenia to determine possible service connected mental illnesses (excluding PTSD). Exam consists of approximately 60 minutes of service, including record review (C-File and medical records) and interview via teleconference (telehealth). Review exams determine if a veteran's condition or functional limitations have changed since their last C&P exam. The psychologist generates a report using the Disability Benefits Questionnaire (DBQ).
Appeals Mental Health Exams	Compensation & Pension (C & P) Psychological Examination to determine if a veteran has a psychological disorder, such as Eating Disorders, Anxiety, Depression, Schizophrenia to determine possible service connected mental illnesses (excluding PTSD), when their case has been remanded for appeal by the Board of Veterans Appeals or similar legal body. Exam consists of approximately 120 minutes of service, including record review (C-File and medical records), interview, and appropriate psychometric testing. The psychologist generates a report using the Disability Benefits Questionnaire (DBQ).
Review PTSD Exams	Compensation & Pension (C & P) Psychological Examination to determine if a veteran's Posttraumatic Stress Disorder (PTSD) condition or functional limitations have changed since their last C&P exam. Exam consists of approximately 60 minutes of service, including record review (C-File and medical records) and interview. The psychologist generates a report using the Disability Benefits Questionnaire (DBQ).
Telehealth Review PTSD Exams	Compensation & Pension (C & P) Psychological Examination to determine if a veteran's Posttraumatic Stress Disorder (PTSD) condition or functional limitations have changed since their last C&P exam. Exam consists of approximately 60 minutes of service, including record review (C-File and medical records) and interview via teleconference (telehealth). The psychologist generates a report using the Disability Benefits Questionnaire (DBQ).

Record Reviews	Psychologist reviews records to provide a medical (i.e., psychological) opinion as requested by the Veterans Benefits Administration (VBA), which may also be documented in the CAPRI system.
Initial PTSD Exams	Compensation & Pension (C & P) Psychological Examination to determine if a veteran has a Posttraumatic Stress Disorder (PTSD). Exam consists of approximately 180 minutes of service, including record review (C-File and medical records), interview, and appropriate psychometric testing, including the MMPI-2; Clinician Administered PTSD Scale for DSM IV (CAPS); and Mississippi Scale for Combat Related PTSD. The psychologist generates a report using the Disability Benefits Questionnaire (DBQ).
